SOME POWERPOINT PRESENTATIONS "IN PREPARATION"

As interest develops, these presentations can be completed. They developed as my Science, Technology & Society [STS] research progressed and are related to many aspects of my basic STS research projects.

While I was doing a certain section of my STS research, information came together on such related topics, so it was formalized in a brief draft of a PowerPoint presentation.

These partially completed presentations can give a better idea of the depth and breath of some of the areas of my STS research that are being explored and developed, along with how many are related to each other.

MOSTLY DONE

STS

SAILING

BASIC NAUTICAL TERMS
SAILING - SIMPLISTIC / BASIC

PRE – WW I
